JANSSEN COSMECEUTICAL

SKIN REGENERATION

The innovative active substance concept supports the skin's natural activity and therefore helps it to attain new resilience and firmness. Selected active substances act down to the very deepest layer of skin and thereby promote cell activity. The entire skin structure is strengthened and restored.

dermatest® confirms:

Tolerability dermatologically tested: Test result „very good“ *

visible effects

Award of innovation handed over to JANSSEN COSMETICS in Paris at the 41 international congress of Esthétique Appliquée in March 2011.

Premium quality, innovation and fascination
